

Learning Intention

Use a suitable strategy to divide.

Steps 2 Early Division Success

Vocabulary

Share equally

sharing

divide

(sharing) dot pictures

repeated subtraction

REMEMBER!!

Use a strategy that suits you.

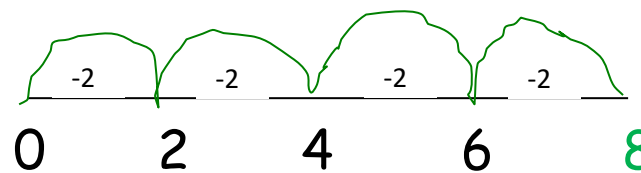

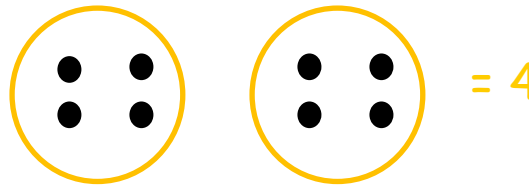

1. You can:

Write a division sum.

Share 8 sweets between 2 children.

$$8 \div 2 =$$

4. You could :

Write a multiplication question to check.

$$4 \times 2 = 8$$

2. Work it out using:

A sharing dot picture.

REMEMBER!!

Make sure you share the dots out equally, set them out in an easy to count pattern.

3. Work it out using:

A repeated subtraction sum.

Remember:

Choose a strategy that suits you to work this out and always check your answer.
