

## Learning Intention

Use a suitable strategy to multiply.

# Steps 2 Early Multiplying

## Vocabulary

Sets of    lots of    groups of    multiply    times  
dot picture    repeated addition    brackets    X

## REMEMBER!!

Use a strategy that suits you.

### You can:

Write the question using brackets.

### You can:

Write a 'sets of' question.

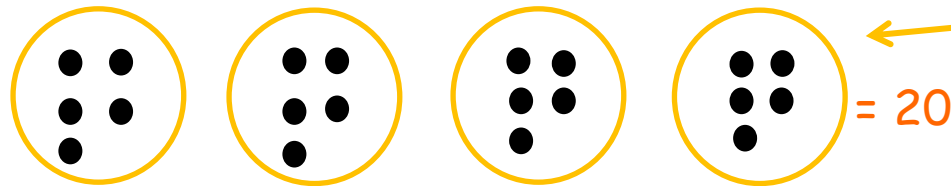

### You can:

Write the question using the 'X' sign.

$$4 (5) = 20$$

$$4 \text{ sets of } 5 = 20$$

$$4 \times 5 = 20$$

$$5 + 5 + 5 + 5 = 20$$

### Work it out using:

A dot picture.

### REMEMBER!!

Make sure each set has the correct number of dots, set them out in an easy to count pattern.

### Work it out using:

A repeated addition sum.

### Remember:

Choose a strategy that suits you to work this out and always check your answer.
